

Emmanuel Mikros

Professor

Emmanuel Mikros, PhD, is a Professor at the Department of Pharmacy, National and Kapodistrian University of Athens. He holds a Ph.D. in Organic Chemistry from Université Paris XI, Orsay, France (1988), an M.Sc. in Organic Chemistry (1984), and a B.Sc. in Chemistry from the University of Athens (1983). His research focuses on molecular structure analysis using NMR and molecular simulations, drug design, in silico screening, and NMR-based metabolomics. He has served as a Visiting Professor at the University of Vienna and the Institut de Chimie de Nice. Currently, he leads cutting-edge research and academic initiatives as a Professor at the University of Athens since 2010. Dr. Mikros has authored 175 research publications with 4,797 citations, boasting an h-index of 38. He is also the inventor of a patent on indirubins for biological applications and has successfully coordinated multiple high-budget projects, some exceeding €4 million. His work has been recognized in various international forums and collaborations, and he is proficient in Greek, French, and English.
